1.6 SIERRA KINGS HEALTH CARE DISTRICT
GLOBAL GOVERANCE
POLICIES AND PROCEDURES

PLANNING – to develop a road map for the future work of the Sierra Kings Health Care District (referred to as the District) towards development of a strategic plan periodically.

Purpose:
The purpose of this policy is to establish a policy and procedure to govern the District's strategic planning process and to implement grant-making processes that are responsive to the real health and wellbeing needs of the community. To that end, the District shall remain current on community needs and develop strategic plans to serve as road maps for the ongoing work of the District.

Policy:
It is the policy of the District to perform ongoing assessments and planning that informs community investments.

Procedure
Every three (3) years the District shall conduct planning necessary to achieve the following:

1. The District shall conduct a data and literature review of local, regional, and state indicators of health-related factors that are impacting the community's well-being.

2. The District shall use the findings of its literature review as the basis for community forums throughout District boundaries to understand the real-life experiences of residents in relation to findings of the data and literature review.

3. The District shall use the findings of items one (1) and two (2) above to publish a Community Health Needs Assessment that details community health indicators and community forum feedback.

4. The Community Health Needs Assessment will assist the District in establishing/re-establishing priorities via a strategic plan to guide community investments.
